The (Vice) President's Corner

At our 21AUG23 meeting, Steve Young will give the presentation. The title is "My Stories from Coin Shows."

When I saw what Steve was going to talk about I laughed out loud. What a hoot!

Steve could give a hundred such presentations, end to end, pausing only for a sip of water every now and then to lubricate the flow!

Now in case you don't know Steve, he's a MCCC member *and* Huntsville-based coin dealer in world coins.

I've had the privilege of knowing Steve for a few years and I've thought many times that if there's a coin tree, Steve is surely the iconic

coin nut who fell from it!

Steve not only deals in coins from all over the world but is also *extremely* knowledgeable about them--and his enthusiasm about coins is simply and delightfully boundless, having been a collector since he was a kid and going into business as a dealer as soon as he retired from Government Service. (His interest in coins hastened his retirement.)

I attended the Blue Ridge Numismatic Association Annual Convention (coin show) in Dalton, GA a few days ago. There were 300+ dealers there. Steve was one of them. I walked the entire floor and I have to say that in my opinion, in the field of foreign coins, no dealer's wares came close to Steve's offerings in looks, value and interest.

I collect mostly foreign business strike (circulating) coins and my primary focus is on eye appeal, variety and the "unusual." Steve has my interests covered wonderfully; I've acquired *quite a few* coins from him.

"Rare and expensive" is not my bag, just as non-circulating commemoratives aren't, but Steve deals in these too. His expertise in oriental coins brings even other dealers to tap into his data banks.

And does he know something about US coins? Oh yeah!

My point here is, regardless of your interests in coins, Steve has a great eye for coins and consistently finds outstanding examples of ordinary and unusual coins alike.

All these dealings in coins and coin shows, both as collector and dealer, have naturally resulted in a huge stock of memorable moments for Steve. I've heard a few: funny, surprising, insightful, informative; so many stories!

Whatever tales Steve shares with us, you're sure to be entertained and enlightened.

I definitely plan to be there!

Wayne

Aaron receives his ANA presentation certificate.

"Numismatics, like some aspects of astronomy and natural history, remains a branch of learning in which the amateur can still do valuable work, and it is on the great collecting public, or rather on that part of which is interested in the subject at a scientific level, that the progress of numismatic science largely depends."

Barber Half Dollar Legacy

By
Doug Glandon

The Barber Half Dollar was the United States' fifth generation fifty cent piece. Even though it was only minted for 23 years, its reign spanned two centuries and six presidents. The coin's beauty and history have secured its legacy among numismatists.

The Barber Half Dollar was the brainchild of Charles E. Barber (1840 – 1917) who was the Chief Engraver of the United States Mint from 1879 until his death in 1917. Mintage began in 1892, along with the quarter, dime, and nickel that he had designed. Mintage would continue into the 20th century ending in 1915.

➤ Designer: Charles E. Barber (1840 – 1917)

❖ Half Dollar: 1892-1915

❖ Quarter: 1892-1916

❖ Dime: 1892-1916

❖ Nickel: 1883-1912 (~5 minted in 1913)

Chief Engraver of the U.S. Mint
1879 - 1917

During this era, several historical milestones occurred. In 1892, Henry D. Perky invented shredded wheat which is a cereal staple today. Also in 1892, the first public basketball game was played. The sport originally used a “basket” instead of the hoop and net that is used today. In 1915, the United States Coast Guard was created as an official branch of the military. Another major milestone of 1915 was the creation of the one millionth Ford Model T. The “horse and buggy” era had officially ended.

**1915: US Coast Guard
Becomes a Military Branch**

**1915: 1 Millionth
Ford Model T Built**

Over the span of 23 years, 73 different coins were minted. The half dollar was minted in Philadelphia, San Francisco, New Orleans, and Denver. Proof coins were minted in Philadelphia. One variety was minted at the New Orleans mint in 1892. Known as the “Micro O”, a mintmark punch designated for the quarter was used by mistake. This variety is extremely rare.

Grading Barber Half Dollars is a fairly easy task once you understand the details required for each grade. ***The Official ANA Grading Standards for United States Coins*** and ***Photograde*** (Whitman Publishing) are two great sources for grading coins.

Remembering the 40th Anniversary of Queen Elizabeth's Coronation

*By
H.K. Fears*

Queen Elizabeth II was crowned at Westminster Abbey on 2 June 1953. She had acceded to the British throne on the death of her father, George VI, the previous year. To celebrate the fortieth anniversary of this coronation, the British Royal Mint released a set of 18 commemorative coins from 18 different countries. To house the complete collection, there was a wooden box made of polished African walnut with a gold embossed lid. It was supplied by the Royal Mint to collectors buying the entire set. At that time, it was not possible to buy a complete collection in one go, as the set was only available "on subscription" at £29.50 (\$42) per coin, except that the first coin was available for only £24.50 (\$35), a discount to get you hooked. The total price for the set would have been £526 (\$750).

*Although struck by the Royal Mint, these are not part of the original set.

The 18 coin set came in a polished African walnut case.

A Little Research About the Royal Mint Advisory Committee (RMAC) Papers Using the Royal Mint Museum

In writing this paper, it was not readily available to me on who designed these coins. In the past, I have used several sites for my numismatic research. One is the Royal Mint Advisory Committee (RMAC) Papers web site. RMAC was established in 1922 with the personal approval of George V to raise the standard of numismatic and medallic art in Britain. In the RMAC 200th meeting dated 11 February 1992 a contest was being discussed concerning the Britain's 1993 40th anniversary crown. As part of this contest 21 artists submitted designs for their approval. It is apparent that some of the designs not selected for Britain's coin were used in building of this set.

I was able to figure out that Artist #4 was John Savage, #5 was Robert Elderton, and #12 was Norman Silman. From an inquiry to the Royal Mint Museum, I learned that Artist #7 was Alf Baker, Artist #14 was Avril Vaughan, and Artist #17 was Raphael Maklounf.

| # | Artist |

| 4 | John Savage |
| 5 | Robert Elderton |
| 7 | Alf Baker |

The Duke of Edinburgh and the Royal Mint Advisory Committee

The Duke of Edinburgh's record of service includes a long association with The Royal Mint. He served as President of The Royal Mint Advisory Committee (RMAC) for 47 years, between 1952 and 1999. Every United Kingdom coin and medal struck by The Royal Mint over this time was assessed and approved by the committee he chaired.

As President of The Royal Mint Advisory Committee (RMAC), Prince Philip's role was to lead the group of people overseeing the design of coins, medals, and seals of the UK along with the Commonwealth and for ensuring the quality of their design.

Can You Identify This Coin?

In this section each month a new coin will be pictured, and your task is to see if you can identify it. Can you step up to this numismatic challenge every month? Email your answer to hkfears@gmail.com and we will publish the names of winners in our next newsletter.

Last month Wayne Kroger, Richard Jozefiak, and Monica Couch were able to identify the mystery coin, a ten cents piece from the British Virgin Islands. This coin has Queen Elizabeth II on the obverse and a ringed kingfisher on the reverse. Richard pointed out that the designer of the Kennedy half dollar, Gilroy Roberts, designed the reverse of this coin.

The Minute Man

By Aaron Wales

July 17, 2023

Congratulations! Harold Fears announced that the MCCC won 3rd place in the electronic category for 2022 for the recent ANA competition. He thanked all that provided articles this past year. Next year, he hopes to enter the local club category. Please submit articles to share with fellow coin club members.

We had a show and share session. Harold brought a 1970 British proof set. This was before the British system was decimal. He ordered that set out of a newspaper and paid \$7.00 at the time.

Wayne Koger reminded attendees that the Dalton, GA show is upcoming on August 4-6.

I presented slides surrounding the subject of nickels. It was quite cozy in the small conference room, but all went well.

A guest, Ian Kubecki, asked a question for the group as to “when to slab” coins. It was discussed that slabbing could cost up to \$35.00. If you have advice in this area, please speak with Ian at the next meeting.

Next month’s (August’s) presentation is on “Stories from Coin Shows.” I’m sure it will be extremely interesting. Please join us. Meeting date is: August 21st

Please pay attention to the coin challenge in the newsletter. There were several winners this month. Thank you to all that participated. There may be a prize in future editions. So, keep an eye out for that.

Door prizes were:

- 1st prize: American Eagle 2013: Aaron Wales
- 2nd prize: Quarter Eagle: Monica Couch
- 3rd prize was donated by Jim Dulin which was a Buffalo nickel, a V nickel, and a War Nickle: Reid Adams

In attendance: 14 members and guests

Madison County Coin Club

For over twenty years, the Madison County Coin Club has served the north Alabama community by bringing numismatists together for the love of coin collecting. The Club strives to impart knowledge to its members through presentations and personal experiences. Through the sharing of knowledge and experiences, it enhances and enriches coin collecting for the numismatic community. Speaking of our members, we have a vast group of collectors who collect all types of United States coins, as well as foreign coins. Many of our members collect coins from a certain era (19th century, for example), while others collect strictly modern coins. We also have members who collect only a certain type of coin (Seated Coins, Morgan Dollars, and Commemoratives, to name a few). Some members focus solely on foreign coins (for instance English, German, and Chinese) which can span many centuries. This diversification makes our club dynamic, providing something for every type of collector.

Members of the club enjoy a number of benefits:

- Monthly lectures, covering a range of numismatic topics
- Access to the club's extensive numismatic library
- Monthly notices via email of club events
- Able to purchase club medals

We are keen to encourage anybody with an interest in numismatics to join the club. We provide a warm and friendly welcome and are very keen to encourage those new to the study, collecting of coins, tokens or banknotes.

The club is a member of the American Numismatic Association (Member #C-195870 Region 20, AL & GA), Alabama Numismatic Society (ANS), Georgia Numismatic Association (GNA), and the Florida United Numismatists (FUN).

Club Library

Madison County Coin Club members can access our lending library of more than 130 books, auction catalogs, and periodicals. The library features resources and materials on subjects including but not limited to U.S. and foreign coins, ancients, paper money, tokens, and medals. You can request materials by emailing the librarian, [Ann Fulmer](#). Library materials are checked out to members for a four-week period. You can email the librarian to renew items for another four-week period (as long as no other member has submitted a hold on the item/items). To return your items simply bring them to one of our meetings.
